resource projects, self-evaluation tool, tools families can do together. Michelle asked us to send her tools and resources that we like.

Board requested a workshop before January meeting.

2. **Responses to “What is the need”**
   a. We felt Michelle accurately reflected our responses with the 4 themes 1) Demonstration projects, 2) Water quality/quantity improvement, 3) Change mindset/habits, and 4) Education/awareness. Discussion included: Shouldn’t water quality be an even higher goal? Changing mindsets will result in water quality. Changing mindsets is hard; we need to engineer clean water. Paying for projects could be the carrot that gets the minds changed.

3. **Responses to “Fullest potential”**
   a. Again, Michelle accurately categorized our responses into 4 themes: 1) a community of action, 2) behaviors are normalized, 3) easy/user friendly, 4) quantifiable results. Discussion included: Concerned about fair, equitable distribution of funds.

4. **Responses to “Important projects”**
   a. Michelle found 6 themes in our responses: 1) maintenance, 2) turf related, 3) Infiltration practices, 4) Restoration, 5) Beyond individuals, 6) Re-use. Discussion included: hope that reuse doesn’t get lost because it scored lower than the others. Often it is larger organizations than can implement reuse projects, but homeowners can install rain barrels. Overall objective: projects that merge education/awareness with cost share program. A good example is the Sustainable Eden Prairie program which educates and saves money. [https://www.edenprairie.org/community/sustainable-eden-prairie](https://www.edenprairie.org/community/sustainable-eden-prairie). It is very important that when we are listing eligible projects that we leave space for innovation.

5. **How does the existing cost share program synch up with the 10-year plan?**
   a. Quite well but it is missing chloride reduction projects (S12), habitat protection (S3), bioengineering shorelines (S7). And for some reason, at this point, we talked about encouraging young people becoming involved in projects: Challenge grants for scouts, Destination Imagination (We have ideas for real projects), and senior capstone projects. Michelle added that we are hoping to do communications better, i.e. a website map that pinpoints all projects and is interactive.

6. **Existing program**
   a. **What is getting in the way?** Calculating phosphorous is laborious; not knowing how to maintain projects; timing; slow, transparency; insufficient expert guidance
   b. **What do we want to know?** Gathering stories of the myriad approaches, e.g. Matt’s Story, Sharon’s Story, etc.
   c. **What is missing?** Cost share for maintenance; live chat? Add pictures of eligible projects; cost calculator
   d. We like online application as opposed to paper. There is an opportunity for clicking on definitions and resources. Give opportunity to print paper copy prior to filling in online.

7. **Draft survey questions:** Michelle will email us draft questions for survey.

8. **Cost Share Programs in Other Watershed Districts:** We will review on our own and send ideas to Michelle.

9. **Send Michelle all thoughts on anything.**

V. **Upcoming Events**
   A. RPBCWD Board of Managers meeting December 5 at 7:00 pm, 18681 Lake Drive East
   B. Zebra Mussel info meeting December 12 from 6:30 – 7:30
   C. Volunteer gathering Dec 13 at Staring Lake Outdoor Center 6:30-7:30
   D. RPBCWD CAC meeting December 17 at 6:00 pm, 18681 Lake Drive East
E. District is closed on November 23, 2018
F. Minnesota Association of Watershed District Annual Meeting, November 29 – December 1, Alexandria, MN (Marilyn and Joanne representing the CAC)

VI. Topics for next month
A. Exit interviews from past members
B. MAWD recap
C. Cost share (big chunk; Michelle will share her frustrations/aggravations with existing program so we can make sure to address in revised program)
D. CAC topic calendar – resurrection
E. Lori mentioned the EP Conservation district is likely picking the theme of “water” for next year, would like to possibly do joint projects with RPBCWD.

VII. Adjourn CAC meeting: Motion to adjourn by Sharon with second by Jim. Motion carried. Meeting adjourned at 8:33 pm.
