

# Table of Contents

---

<b>Introduction</b> .....	<b>1-1</b>
1.1 Location, Boundaries, Descriptions.....	1-1
1.2 Governance.....	1-3
1.2.1 National & State Policies.....	1-3
1.2.2 District Regulation.....	1-7
1.2.3 Board of Managers.....	1-8
1.2.4 Citizen Advisors.....	1-9
1.2.5 Technical Advisors.....	1-10
1.2.6 Funding/Budget Overview.....	1-10
1.3 Watershed District History.....	1-11
1.3.1 Evolving Emphasis.....	1-12
1.3.2 A History of Adapting to Change.....	1-12
1.3.3 Moving from Regulations to Restoration Projects.....	1-13
1.3.4 2 <sup>nd</sup> Generation Plan Accomplishments.....	1-16
1.3.5 3 <sup>rd</sup> Generation Plan Development.....	1-17
1.4 Watershed Issues.....	1-18
1.4.1 Regulatory Roles and Responsibilities.....	1-19
1.4.2 Communication between Watershed Partners.....	1-19
1.4.3 Stream Flows and Erosion.....	1-20
1.4.4 Lake Eutrophication and Water Quality.....	1-21
1.4.5 Biological Resources.....	1-21
1.4.6 Wetlands.....	1-22
1.4.7 Recreational Uses.....	1-22
<b>Objectives, Policies and Goals</b> .....	<b>2-1</b>
2.1 Conservation Ethic.....	2-1
2.2 Adoption of National Goals and Policies and State Policies.....	2-2
2.3 District Goals and Watershed Management Approach.....	2-5
2.3.1 Vision.....	2-5
2.3.2 Long-Term Goals.....	2-5
2.3.3 Short-Term Goals.....	2-6
2.3.4 ONE WATER Watershed Management Approach.....	2-7
2.4 Municipal Coordination.....	2-10
2.4.1 Municipality Priorities.....	2-10
2.4.2 District Expectations for Municipal Involvement.....	2-10
<b>District Land and Resource Factors Inventory</b> .....	<b>3-1</b>
3.1 Precipitation.....	3-1

3.2	Summary of General Geology and Topography.....	3-2
3.2.1	Topography.....	3-2
3.2.2	Geology.....	3-3
3.3	Groundwater Resource Data.....	3-3
3.3.1	Aquifers.....	3-3
3.3.2	Groundwater/Surface Water Connections.....	3-4
3.3.3	County Groundwater Planning.....	3-4
3.4	Soil Data.....	3-5
3.4.1	Types.....	3-6
3.4.2	Development Limitations.....	3-6
3.5	Unique Features and Scenic Areas.....	3-6
3.6	Pollutant Sources.....	3-7
	<b>Riley Creek One Water.....</b>	<b>4-1</b>
4.1	History.....	4-3
4.1.1	1996 Data Collection Program.....	4-3
4.2	Land and Water Resource Summary.....	4-5
4.2.1	Land Use and Public Utilities Services.....	4-5
4.2.2	Stream Summary.....	4-6
4.2.3	Lake Summary.....	4-9
4.2.4	Water Based Recreation Areas.....	4-10
4.2.5	Fish and Wildlife Habitat.....	4-11
4.3	Problem Assessment.....	4-12
4.3.1	Riley Creek Erosion.....	4-12
4.3.2	Lake Eutrophication.....	4-12
4.3.3	Lakes Cyanobacteria.....	4-14
4.3.4	Non-Native Plant and Animal Species.....	4-15
4.3.5	Lakes Mercury in Fish Tissues.....	4-16
4.4	Potential Solutions.....	4-16
4.4.1	Riley Creek Watershed Level Solutions.....	4-18
4.4.2	Upper Riley Functional Unit Solutions.....	4-18
4.4.3	Middle Riley Functional Unit Solutions.....	4-20
4.4.4	Lower Riley Functional Unit Solutions.....	4-21
4.4.5	Lake Level Solutions.....	4-25
	<b>Purgatory Creek One Water.....</b>	<b>5-1</b>
5.1	History.....	5-3
5.1.1	1996 Data Collection Program.....	5-3
5.2	Land and Water Resource Summary.....	5-6
5.2.1	Land Use and Public Utilities Services.....	5-6
5.2.2	Stream Summary.....	5-7
5.2.3	Lake Summary.....	5-10
5.2.4	Water Based Recreation Areas.....	5-11
5.2.5	Fish and Wildlife Habitat.....	5-12
5.3	Problem Assessment.....	5-13
5.3.1	Lake Eutrophication.....	5-13
5.3.2	Lakes Cyanobacteria.....	5-15
5.3.3	Non-Native Plant and Animal Species.....	5-16

5.3.4 Lakes Mercury in Fish Tissues ..... 5-17

5.4 Potential Solutions ..... 5-17

5.4.1 Purgatory Creek Watershed Level Solutions..... 5-19

5.4.2 Headwaters Functional Unit Solutions..... 5-19

5.4.3 Upper Purgatory Functional Unit Solutions ..... 5-21

5.4.4 Southwest Purgatory Functional Unit Solutions..... 5-21

5.4.5 Lower Purgatory Functional Unit Solutions ..... 5-22

5.4.6 Lake Level Solutions..... 5-23

**Bluff Creek One Water ..... 6-1**

6.1 History ..... 6-1

6.1.1 Review of 1996 Data Program and Results ..... 6-1

6.2 Land and Water Resource Summary ..... 6-3

6.2.1 Land Use and Public Utilities Services ..... 6-3

6.2.2 Stream Summary..... 6-5

6.3 Problem Assessment..... 6-7

6.4 Potential Solutions ..... 6-8

**Implementation Plan ..... 7-1**

7.1 Vision..... 7-1

7.2 Watershed Management Strategies..... 7-1

7.3 Prioritizing Watershed Management Solutions – Project Selection Criteria ..... 7-2

7.4 Watershed Solutions..... 7-3

7.5 Adaptive Management Plan Development..... 7-13

7.6 Data Collection and Reporting..... 7-13

7.6.1 Data Collection Program Goals and Priorities..... 7-13

7.6.2 Streams ..... 7-16

7.6.3 Lakes ..... 7-19

7.6.4 Hydrologic and Meteorological Data..... 7-21

7.6.5 Reporting..... 7-21

7.6.6 Monitoring and TMDL Development..... 7-22

7.7 District Response to Impaired Waters and TMDLs ..... 7-22

7.8 Regulatory Controls and Performance Standards ..... 7-23

7.8.1 Regulatory Controls ..... 7-23

7.8.2 Stormwater and Drainage Design ..... 7-25

7.9 Communications Program..... 7-26

7.9.1 “Evening with the Watershed” ..... 7-26

7.9.2 Local Clean Water Organization and Lake Association Support ..... 7-26

7.9.3 Web Application (www.rileywd.org)..... 7-27

7.9.4 Educational Materials..... 7-27

7.9.5 Scientific Community Outreach and Participation ..... 7-28

7.9.6 Content of Annual Publication ..... 7-28

7.9.7 Communications Plan ..... 7-28

7.10 Low Impact Development Program..... 7-29

7.10.1 Low Impact Development Program Background ..... 7-32

7.10.2 Future Implementation and Potential Benefits..... 7-35

7.11 Measuring Success: Plan Implementation Scorecards..... 7-36

7.11.1 BWSR Performance Review and Assistance Program (PRAP) ..... 7-36

7.11.2	District Plan Implementation Scorecards.....	7-36
7.12	Amendments to Plan.....	7-37
7.12.1	General Amendment Procedure .....	7-37
7.12.2	Minor Amendments to Capital Improvements.....	7-37
7.12.3	Form of Amendments.....	7-37
7.12.4	Distribution of Amendments.....	7-38

**Appendices**

- A. 10-Year Budget
- B. Communications Plan
- C. District Performance Scorecards
- D. Stream Conditions Report
- E. Stream Classification Methodology
- F. District Wetlands
- G. Lake Conditions and Data Analysis (including individual lake reports)

**Tables**

1-1	Primary National and State Policies.....	1-4
1-2	Additional National and State Policies .....	1-5
1-3	Minnesota Regulations Chapter 7050 - Water Quality Standards .....	1-6
1-4	Applicable Municipal Ordinances.....	1-8
1-5	District Board Members .....	1-9
1-6	Citizen Advisory Committee Membership .....	1-9
1-7	Technical Advisory Committee Membership.....	1-10
1-8	Tax Rate by Taxing District (Payable 2009).....	1-10
1-9	Estimated Tax Attributed to Watershed District.....	1-11
1-10	Watershed Issues Summary – Nutrient Loading Percent Contribution by Source.	1-23
1-11	Watershed Issues Summary – Pounds of Phosphorus .....	1-24
2-1	Summary of Applicable EQB Watermarks 10-Year Plan Content .....	2-3
2-2	Summary of Applicable DNR Strategic Conservation Agenda Content .....	2-4
2-3	Summary of Applicable MPCA 2008 Strategic Plan Content.....	2-5
4-1	1996-2006 District Lake Water Quality Monitoring Program.....	4-4
4-2	Lake Sampling Frequency from 1996 through 2006 in the Riley Purgatory Bluff Creek Watershed .....	4-5
4-3	Riley Creek Watershed Land Use.....	4-6
4-4	Riley Creek Reference Reach Summary.....	4-7
4-5	Riley Creek Watershed Lake Characteristics .....	4-9
4-6	Water Based Recreation Areas Riley Creek Watershed .....	4-10
4-7	Primary Recreational Fish Species Riley Creek Watershed .....	4-11
4-8	2008 Fish Species Population Biomass in Lake Susan Riley Creek Watershed.....	4-11
4-9	Riley Creek Watershed.....	4-12
4-10	303(d) Listed Lakes-Riley Creek Watershed .....	4-12
4-11	Selected Lake Eutrophication Summary Riley Creek Watershed.....	4-13

4-12 Lake Phosphorus Budget Relative Contributions-Typical Precipitation Year ..... 4-14

4-13 Instances of Surface Cyanobacteria Levels Exceeding WHO Low and Medium  
Risks during 2008 Sampling Season ..... 4-15

4-14 Lakes Impaired with Mercury in Fish Tissues-Riley Creek Watershed ..... 4-16

4-15 Watershed Level Potential Solutions-Riley Creek Watershed ..... 4-18

4-16 Upper Riley Functional Unit Potential Solutions-Riley Creek Watershed..... 4-19

4-17 Middle Riley Functional Unit Potential Solutions ..... 4-20

4-18 Lower Riley Functional Unit Potential Solutions ..... 4-21

4-19 Lake Lucy Potential Solutions ..... 4-25

4-20 Lake Ann Potential Solutions ..... 4-26

4-21 Lake Susan Potential Solutions..... 4-27

4-22 Rice Marsh Lake Potential Solutions ..... 4-27

4-23 Lake Riley Potential Solutions ..... 4-28

  

5-1 1996-2006 District Lake Water Quality Monitoring Program ..... 5-5

5-2 Lake Sampling Frequency from 1996 through 2006 ..... 5-6

5-3 Existing and Planned Land Use ..... 5-7

5-4 Physical Classification Parameters by Reference Reach ..... 5-9

5-5 Lake Characteristics Purgatory Creek Watershed ..... 5-10

5-6 Water Based Recreation Areas Purgatory Creek Watershed ..... 5-11

5-7 Primary Recreational Fish Species Riley Creek Watershed..... 5-12

5-8 303(d) Listed Lakes Purgatory Creek Watershed ..... 5-13

5-9 Selected Lake Eutrophication Summary Purgatory Creek Watershed..... 5-14

5-10 Lake Phosphorus Budget Relative Conditions – Typical Precipitation Year  
Purgatory Creek Watershed ..... 5-15

5-11 Instances of Surface Cyanobacteria Levels Exceeding WHO Low and Medium  
Risks During 2008 Sampling Season-Purgatory Creek Watershed ..... 5-16

5-12 Lakes Impaired with Mercury in Fish Tissues-Purgatory Creek Watershed ..... 5-17

5-13 Watershed Level Potential Solutions-Purgatory Creek Watershed ..... 5-19

5-14 Headwaters Functional Unit Potential Solutions-Purgatory Creek Watershed..... 5-20

5-15 Southwest Purgatory Functional Unit Potential Solutions..... 5-22

5-16 Lotus Lake Potential Solutions ..... 5-24

5-17 Silver Lake Potential Solutions ..... 5-25

5-18 Duck Lake Potential Solutions..... 5-26

5-19 Round Lake Potential Solutions ..... 5-27

5-20 Mitchell Lake Potential Solutions..... 5-28

5-21 Red Rock Lake Potential Solutions ..... 5-29

5-22 Staring Lake Potential Solutions ..... 5-29

5-23 Hyland Lake Potential Solutions..... 5-30

  

6-1 Bluff Creek Watershed Land Use..... 6-4

6-2 Bluff Creek – 1996 Physical Classification Summary ..... 6-5

  

7-1 Potential Solutions for Plan Implementation ..... 7-11

7-2 Representative Routine Data Collection Program..... 7-20

7-3 Partner Organizations to the District..... 7-27

7-4 Number of Structures in the Lotus Lake Subwatershed..... 7-33

**Figures**

1-1 Legal and Subwatershed Boundaries..... 1-2

1-2 Regulatory and Non-Regulatory Strategy Responsibilities ..... 1-15

1-3 Phosphorus Loading Contributions by Source in the Riley Creek One Water ..... 1-25

1-4 Phosphorus Loading Contributions by Source in the Riley Creek One Water ..... 1-26

1-5 Phosphorus Loading Contributions by Source in the Riley Creek One Water ..... 1-27

2-1 Water Quality Improvement Plan ..... 2-9

3-1 Seasonal Long Term Precipitation Trends ..... 3-2

4-1 Riley Creek Watershed..... 4-1

4-2 Subwatershed Boundaries – Riley Creek One Water ..... 4-2

4-3 Riley Creek Stream Reaches (Rosgen Classification)..... 4-8

4-4 Lake Susan (Photograph)..... 4-13

4-5 Lake Riley (Photograph) ..... 4-14

5-1 Purgatory Creek Watershed ..... 5-1

5-2 Subwatershed Boundaries – Purgatory Creek and Hyland Lake One Waters ..... 5-2

5-3 Purgatory Creek Stream Reaches (Rosgen Classification) ..... 5-8

5-4 Purgatory Creek (Photograph)..... 5-21

5-5 Lotus Lake (Photograph) ..... 5-23

5-6 Mitchell Lake (Photograph)..... 5-28

6-1 Bluff Creek Watershed ..... 6-1

6-2 Subwatershed Boundary – Bluff Creek One Water..... 6-2

6-3 Bluff Creek Stream Reaches (Rosgen Classification) ..... 6-6

7-1 Water Quality Improvement Plan – Lakes ..... 7-14

7-2 Water Quality Improvement Plan – Streams ..... 7-15

7-3 District Stream Sampling Locations ..... 7-17

7-4 Pioneer Trail WOMP – Purgatory Creek (Photograph) ..... 7-18

7-5 Lake Sampling – Lake Susan (Photograph) ..... 7-19

7-6 Purgatory Creek Low Impact Development Program Functional Units ..... 7-30

7-7 Riley Creek Low Impact Development Program Functional Units ..... 7-31

7-8 Monitoring Data from Smith-Douglas-More House Rainwater Garden ..... 7-32

7-9 Lotus Lake Subwatersheds for Low Impact Development Program ..... 7-34

7-10 Estimated Potential for Stormwater Infiltration and Phosphorus Removal through  
Low Impact Development in the Lotus Lake Subwatershed..... 7-35
