65 Manager Koch moved to approve the resolutions set forth in the Consent Agenda. Manager
66 Pedersen seconded the motion. President Ziegler confirmed the items on the Consent Agenda
67 include items b, c, d, e, f, and Action Items c and g.

68 Attorney Smith said regarding the two permits on the Consent Agenda, there is an overlying
69 resolution that was prepared as part of this agenda item, and the staff report already has one
70 prepared, and he recommends the Board use the one prepared as part of the staff report as it is
71 more specific for those permits, and it would be good to be clear on what the Board is approving.

72 Attorney Smith said regarding the Consent Agenda item for Permit 2020-061, the District makes
73 it clear that the application of the District’s rules is dependent upon the City’s assumption that the
74 street and associated infrastructure to be constructed that the City will take that responsibility. He
75 said the Board wants to make clear this is a condition of the permit rule that the City take on that
76 responsibility.

77 Manager Koch moved to amend the meeting agenda to pull from the Consent Agenda item 6d –
78 Approve Permit 2020-061 Purgatory Creek 2nd Addition as Presented in the Proposed Board

146
147

Manager Crafton moved to accept the February staff report. Manager Pedersen seconded the motion. Manager Koch asked about what Eden Prairie’s model will include regarding creeks in and out of Eden Prairie. Engineer Sobiech said the areas of the creek outside of Eden Prairie will be included in the model but won’t be as detailed as the areas of the creek inside Eden Prairie. Engineer Sobiech explained the City of Minnetonka updated all of Purgatory Creek. He said there will be a little bit of the Lotus Lake watershed that will need to be updated, but that portion is very minimal. He provided more information about the level of detail included in the model.

148

150
151

Temporary Interim Administrator Sobiech said staff Dickhausen has reached out to the DNR and BWSR to volunteer for those committees to help develop that program and also to offer being a test program.

162
163
164
165

Manager Koch asked for more details about looking at the release rates of phosphorous in shallow areas of Lotus Lake. Engineer Sobiech said cores taken in the shallower areas show a higher release rate than those areas that were treated, so it makes sense to target those shallower areas. Manager Koch said the wake boat study should be

166 considered. Manager Crafton recommended the District write a letter to St. Anthony
167 Falls Lab about the wake boat study, as the District contributed \$10,000 and didn't
168 receive quite the deliverables the District was expecting.

169 Upon a roll call vote, the motion carried 4-0 as follows:

170

<i>Manager</i>	<i>Action</i>
Crafton	Aye

178 Engineering spoke with the Capitol Region Watershed District and approved sharing
179 that information with the District. Manager Koch recommended staff follow up on the
180 sharing of information. Upon a roll call vote, the motion carried 4-0 as follows:

181

<i>Manager</i>	<i>Action</i>

183 **f. Accept Memo on Status of Work without Permits**

184 Temporary Interim Administrator Sobiech went through the summary memo included in
185 the meeting packet regarding three locations where work has been done without permits
186 and gave a status update.

187 Manager Koch commented he wants to make sure the work the property owners say
188 they have done gets done correctly and that the District recovers its time and expenses

189 incurred on these projects and facilitating them through the District’s permit process.
 190 Manager Koch said he was very concerned about the Eliason fellow, and the District
 191 can’t allow people to do things without permits. He said he would like staff to consult
 192 with Attorney Smith about options and the best course of action to get compliance and
 193 to come back to the Board with recommendations. Manager Koch said he brought two
 194 of these items to the District’s attention, the most recent being 7300 Laredo Drive.

195 Manager Koch moved to accept the memo and direct staff to consult with District Legal
 196 Counsel and bring back recommendations on how to deal with these three situations and
 197 future situations. Manager Pedersen seconded the motion. Upon a roll call vote, the
 198 motion carried 4-0 as follows:

206 Manager Koch asked if the payment to the City of Eden Prairie in the amount of
 207 \$235,000 is in connection with the project for the Duck Lake bridge. He said he wants
 208 to make sure the District isn’t paying sooner than obligated by contract and that the
 209 conditions in the contract have been satisfied. Temporary Interim Administrator
 210 Sobiech gave a construction status update as provided to him by the City of Eden
 211 Prairie. He explained the agreement outlined payment in five installments starting in
 212 2021, after the contract gets awarded and construction started. He said he doesn’t recall
 213 milestones listed in the agreement. Manager Koch said there should have been, and
 214 there was discussion about putting those triggers in there. He said he is uncomfortable
 215 approving the payment until someone looks at the contract and tells him the District is
 216 obligated to make the payment. Upon a roll call vote, the motion carried 3-1 as follows:

i. Approve Resolution 22-022 Grant Agreement with the City of Chanhassen for a Groundwater Conservation Grant and Authorize President to Execute

Grant Program Coordinator Forbes provided background on the District’s Ground Water Conservation Grant Program, the cost-share grants awarded, and the status of those cost-share grants. She summarized the proposed grant share agreement with the City of Chanhassen at an amount of \$15,058 as proposed in Resolution 22-022.

Manager Koch commented the \$15,058 is an increase from the amount in a previous letter from the City, and he asked staff to note going forward the reasons when there are changes like that, so managers are made aware. He said the agreement includes the indemnification language exactly as the District should be including in its contracts. Manager Koch moved to adopt Resolution 22-022. Manager Crafton seconded the motion.

Attorney Smith said there is a letter included at Exhibit A that doesn’t belong with the scope of work. He recommended that not be part of the agreement, as the scope is clearly spelled out otherwise. Attorney Smith said it would be worthwhile for Temporary Interim Administrator Sobiech or Staff Forbes to work with the District’s

244 Legal Counsel on an update on the status of the cost-share grant agreements with the
245 other cities, so the Board is apprised of the situation with those grants.

246 Manager Koch amended his motion to delete the letter in Exhibit A from Resolution 22-
247 022. Manager Crafton accepted the friendly amendment. Upon a roll call vote, the
248 motion carried 4-0 as follows:

251 Manager Crafton moved that staff review the status of the cost-share grant projects with
252 other cities and bring back the information to the Board. Manager Koch seconded the
253 motion. Manager Koch said he thinks the update would be appropriate to have when the
254 Board discusses the reconciliation of the District's 2021 budget. Upon a roll call vote,
255 the motion carried 4-0 as follows:

256

<i>Manager</i>	<i>Action</i>

Dr. Ray Newman summarized other work he has conducted with the District in terms of water quality in the watershed and explained this work is on the vegetation response. He went into more detail about the proposed work. Manager Pedersen moved to accept the University of Minnesota Aquatic Vegetation Management Proposal and authorize moving forward.

Temporary Interim Administrator Sobiech said District staff is looking for concurrence from the Board that it wants to move forward, and if it does, then the proposal will be reviewed in detail and an agreement will be drafted to bring to the Board. Manager Koch provided his recommendations on information to include, such as cost benefit analysis, and the structure of that information. He said the District really needs to stick to it's 10-year plan or change the plan. Temporary Interim Administrator Sobiech said aquatic vegetation work is in the District's 10-Year Plan, but it is an important step to bring that information to the Board, so it understands where it is in the Plan.

 292 in Eden Prairie.

293 Manager Koch moved to direct staff to move forward to bring recommendations to the
 294 Board and to seek out the requests from the cities and counties and bring all information
 295 back to the Board. Manager Crafton seconded the motion. Attorney Smith clarified the
 296 motion is for staff to be proactive in developing a proposal with the other partners and
 297 bringing it to the Board. Manager Koch said yes, that is his motion. Upon a roll call vote,
 298 the motion carried 4-0 as follows:

299

<i>Manager</i>	<i>Action</i>

301 **d. 2021 Annual Report Status**

302 Grant Program Coordinator Forbes displayed a timeline for developing the annual report
 303 and shared an update on next steps for the managers’ review and commenting on the draft
 304 report. Manager Koch commented BWSR has specific specifications for what is included
 305 in the annual report, and he wants staff to make sure the District follows each and every
 306 one of those report requirements.

307 **e. Attorney Report**

308 **i. Closed Session – Spring Valley Friends vs. RPBCWD Litigation**

309 Attorney Smith said there’s no need for a closed session on this matter
 310 tonight. He provided an update on the litigation process. Attorney Smith
 311 explained the District had brought the motion to dismiss, which was
 312 scheduled for February. He said the judge needed to change the calendar
 313 and the District hasn’t yet received a new date for that hearing, so the
 314 District is waiting to receive the new date of the hearing.

315

316 **f. Engineer Report**

317 Temporary Interim Administrator/Engineer Sobiech said that at the continuance of the
 318 Board’s February 2nd meeting, there was discussion about the potential opportunity for
 319 Barr Engineering to work with the City of Minnetonka on a streambank stabilization
 320 project along Purgatory Creek in Purgatory Creek Park. He said the City of Minnetonka
 321 is interested in pursuing some type of a partnership such as a cost share or technical

322 assistance. He reported the City is discussing it internally and will reach out to the
 323 District when they have more plans in place.

324 Manager Koch expressed his concern about Riley Creek by Noble Hills and the potential
 325 for sloughing of the slope. He said he would like that updated as part of the District’s
 326 CRAS, and maybe the City of Eden Prairie would be interested in partnering with the
 327 District. Manager Koch moved for staff to come back to the Board with
 328 recommendations with respect to the slopes along Riley Creek along the Fredrick-Miller
 329 Spring area. Manager Pedersen seconded the motion. Upon a roll call vote, the motion

337 **ii. Meeting Minute Development**

338 Temporary Interim Administrator Sobiech noted work being done to look
 339 at ways the Board’s draft minutes could be distributed to managers prior
 340 to the Board packet coming out. He said he will suggest the Governance
 341 Committee look at what the requirement is for minutes. Attorney Smith
 342 said the minutes record the votes, the Board secretary is responsible for
 343 producing the minutes, and the required certification means certification
 344 that the minutes are accurate as approved by the Board. Manager Koch
 345 said the Governance Committee can discuss this with Attorney Smith and
 346 provide clarification, so everyone is on the same page.

347 **h. Manager Report**

 356 Lake’s level has gone down substantially over the last year. She said she
 357 heard that the group is planning to bring something to the District in the
 358 next month or so. She said she recused herself from the group in those
 359 discussions, and she’s not really part of that group, unless the group needs
 360 background information about the watershed and/or District.
